Vernisage at the Kukuphi gallery - The sound makes the music

🕒 Thursday 20:00 o'clock

Clay sculptures, thought pictures designed by Joschika Peter. Conceptual paintings by Viktoria Matryuk. Bronze figure by Udo Rabensteiner.

Description

15.5. at 8 pm an exciting concert with Mike&Steve. Artists. Worlds meet at kukuphi that could not be more different. The clear idea of conceptual art as an image creates spaces for thought; the tangible presence of the clay sculpture is a mental image and the abstract design of a bronze sculpture stands confidently in the room. The artistic addition will be a concert - a synaesthesia of art and music.

It's not about what you see, but what you think when you see it!
