Tour description

Learn about the nature of the Brandner Valley at eleven interactive stations along the Natursprünge-Weg! Fun and games for young and old are guaranteed along this trail in summer!

On the new **Natursprünge-Weg (trail)**, there is plenty to **discover, marvel at, and experience** for the whole family. Spend your valuable time together in the place where it is most beautiful: in the nature of the Brandnertal valley. Along this interactive hiking trail, you will playfully learn something new and exciting together at various stations, all about the forests and waters of the Alps. In short, you will uncover secrets of alpine nature and its inhabitants that you will be talking about for a long time to come.

Take the **Dorfbahn Brand** cable car to the starting point at the Dorfbahn mountain station. From there, the trail leads uphill past the **Tannlegerlift** in the direction of **Parpfienzsattel**. At Parpfienzsattel, the path branches off to the right toward **Burtschasattel**, bringing you to the mountain station of the **Panoramabahn**. You then float back down into the valley on the Panorama and Dorfbahn cable cars. The trail can also be walked in the opposite direction, which makes it a bit easier as it is mostly downhill.
