Experience nature up close, recharge your energy and discover new things. Michaela takes you on explorations and shares her knowledge – whether it's collecting and creatively processing herbs, making natural skincare products, or stocking your own bee home remedy kit. Experience how you can find your balance in harmony with nature.

Detailed description

Discover the wonders of nature, be inspired and experience how nature supports your health in a holistic way.

Michaela wants to share this fascination with you and offers a wide range of courses. As a longtime certified herbalist and wild herb guide, you can explore Austria's herbal diversity with her and learn to identify and mindfully collect wild herbs, followed by creatively processing them. Through her training as a Green Cosmetics Skin Educator, you can also learn how to make your own natural cosmetics, completely free of chemicals and plastics – but full of plant power! Or you can learn more about the health-promoting effects of bee products and put together your own bee home remedy kit. In addition to courses, Michaela also offers honey body treatments – a connective tissue and fascia treatment that stimulates lymph and blood circulation.
