

Walch's Camping & Landhaus

CAMPSITE

 Arlbergstraße 93, 6751 Innerbraz

WELL-BEING: A concept that accesses different senses. In order to achieve this well-being, we have adopted the teachings of the FENG SHUI - a system originating from China, which serves the "harmonization" of construction projects and living spaces.

For us, this philosophy is an expression of life. With the help of our Feng Shui Master, we have taken his experience and influences into our life's work - Walch's Camping & Landhaus. Important is the ideal energization of the square and the building. A place of security, favorable circumstances, best vibrations & harmony. This ALL could thus be created. You will FEEL IT & EXPERIENCE - day by day. We are very proud that we were able to build our building according to ecological criteria and thus gain 80% of the energy demand from geothermal energy.
