**Walser trail**

In earlier times, when there were no roads in the Great Walser Valley, the individual villages were only connected by footpaths. Today these footpaths form the historical Walserweg.

It begins in Thüringerberg at the Teleingang and leads straight to the cultural center of the Walser Valley, the Provost's office in St. Gerold with its beautiful monastery garden. Further it goes to the small village Blons, where the path splits for the first time. You can walk towards Raggal or directly after Sunday.

**Around the Zafernhorn**

In Faschina the path leads on the shady side of the Zafernhorn to the Bartholomäusalpe. From there the mountain path winds up to the Gumener Grätle and crosses the eastern flanks of the Zafernhorn above the Gumenalpe and Zafernalpe. At Furka the path leads into the Zafernalpe driveway. There you can limit yourself to the panoramic circular hike without climbing the summit. The way back takes place alternately on driveways and footpaths. After crossing the rough Stutzobel it is finally a leisurely stroll. Walking time: approx. 5 hours / 3.5 hours without summit ascent
