

BERGaktiv snowshoe hike in the core zone Lutz

Hike from the biosphärenpark.haus you walk down to the Lutz and further into the valley towards Buchboden.

Description

From the biosphärenpark.haus you hike down to the Lutz and further into the valley towards Buchboden. The stream landscape in winter is particularly beautiful: icicles, hoar frost and frozen waterfalls conjure up unique works of art along the way. Along the way, the hiking guide tells you about the biosphere park and what makes the upper reaches of the Lutz a core zone. Once you arrive in Buchboden, there is time for a cosy stop before taking the bus back to the starting point.
